NOTICE OF PUBLIC MEETING

Reactivity Scientific Advisory Committee

The Reactivity Scientific Advisory Committee (RSAC) was established in 1996 as a group of independent scientists who make recommendations for the California Air Resources Board (ARB) to consider on the science related to VOC reactivity. Since being established, the RSAC has met periodically to discuss recent developments with respect to reactivity-related research and its potential implications. The members of the RSAC are John Seinfeld (California Institute of Technology, Chairman), Roger Atkinson (University of California, Riverside), Jack Calvert (National Center for Atmospheric Research, retired), Harvey Jeffries (University of North Carolina, Chapel Hill), Jana Milford (University of Colorado, Boulder), and Ted Russell (Georgia Institute of Technology). The meeting of the RSAC will be held on:

Date: Wednesday, March 25, 2009

Time: 9:00 a.m. to 12:00 noon (PDT)

Location: First Floor Training Room
Cal/EPA Building, 1001 I St.,
Sacramento, CA

The meeting agenda will include an overview by Dr. Bill Carter (University of California, Riverside) of the SAPRC-07 chemical mechanism and the MIR/bin tables derived from SAPRC-07, presentations by peer reviewers of SAPRC-07, Dr. Carter's response to the peer reviews, discussion by the Committee, and a resolution to approve SAPRC-07 and the MIR/bin tables.

Dr. Carter's report is available at his website, <http://www.engr.ucr.edu/~carter/SAPRC>. If you have any questions regarding the RSAC meeting, please contact Dongmin Luo, Research Division, at (916) 324-8496 or by email at dluo@arb.ca.gov. After an initial discussion by the committee members, members of the public will be given an opportunity to comment.

Bart E. Croes, P.E.
Chief, Research Division

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
