[this page intentionally left blank]

**I. Proposition 1B: Goods Movement
Emission Reduction Program**

[this page intentionally left blank]

EXECUTIVE SUMMARY

The \$1 billion Proposition 1B: Goods Movement Emission Reduction Program (Program) is successfully underway in California's four priority trade corridors, reducing freight pollution and the associated health risks in communities near seaports, rail yards, freeways, and distribution centers. Health and Safety Code section 39625 et seq. established the Program and directed the Air Resources Board (ARB or Board) to maximize emission reduction benefits while achieving the earliest possible health risk reductions. This report describes the progress on the Program through September 2014, including a listing of each grant with the funding amount, location, the number of trucks or other equipment that have been or are being upgraded, the timeframe for completion, and the expected emission reductions.

Of the \$1 billion authorized, ARB has \$980 million available for emission reduction projects and administrative costs, with \$20 million retained for bond issuance and oversight costs. ARB has allocated approximately \$740 million for local agency projects and ARB's administration costs from 2008 until the present. Of this amount, ARB has received \$728 million in cash and is approved for the remaining \$12 million to cover projects and provide for ARB's costs. ARB was approved for a \$240 million appropriation in the FY14-15 budget and will need to request cash to cover the next round of projects and administrative costs. ARB awards and oversees grants to local agencies that in turn offer competitive incentives to diesel equipment owners to upgrade to cleaner technologies ahead of, or beyond, regulatory requirements. To ensure accountability and effectiveness, all grants are awarded in an open, public process as required by ARB Program Guidelines.

With nearly \$246 million from the Program's first funding cycle, over 5,000 diesel trucks were replaced or retrofitted by the end of 2011, grid-based electrical power was installed at three ship berths at the Port of Oakland, and 19 locomotives were upgraded and are operating in the Central Valley and Los Angeles/Inland Empire. These first year projects will reduce over 2.5 million pounds of fine particulate matter (PM) plus over 54 million pounds of nitrogen oxides (NOx) in California over the term of the contracts.

Funding for the second cycle was received and awarded in two phases; \$200 million in June 2010 and approximately \$122 million in December 2011. Over 4,500 trucks, 34 ship berths and one harbor craft were upgraded by December 2013; six locomotives are expected to be operational by December 2014. These projects will reduce about 1.7 million pounds of PM and over 68 million pounds of NOx over the term of the contracts.

In late 2013, ARB worked with the local agencies to hold solicitations that would provide \$150 million for truck projects; the local agencies are implementing these projects to get about 4,000 trucks upgraded. ARB estimates these projects will reduce over 250,000 pounds of PM and almost 48 million pounds of NOx over the term of the contracts.

The report, which is required by Government Code section 16724.4, is available electronically at: <http://www.arb.ca.gov/mandrpts/mandrpts.htm>. To order a hard copy, please contact Mr. Christopher Schlagel at (916) 322-8267.

2014 Report to Legislature

Previously submitted to the Department of Finance

December 2014 Semi-Annual Status Report to the Department of Finance

This status report provides an update on implementation of the \$1 billion Proposition 1B: Goods Movement Emission Reduction Program (Program) to reduce emissions and health risk from freight operations in California's priority trade corridors through incentives. Consistent with State law, the Program Guidelines for Implementation (Guidelines) and related documents detail the grant/contract requirements for the Air Resources Board (ARB or Board), participating local agencies, and equipment owners (see Program website at: <http://www.arb.ca.gov/gmbond>).

ARB adopts the Guidelines, and then solicits, awards, funds, and oversees grants to local agencies like air districts and seaports. The local agencies offer grants or contracts in a competitive process to diesel equipment owners to co-fund the upgrade of diesel equipment to cleaner technologies, ahead of or beyond any regulatory requirements to do so. To ensure accountability and effective use of these public funds, the local agencies: solicit for eligible projects, review applications, inspect the old equipment, provide data to competitively rank each piece of equipment based on emission reductions and cost-effectiveness, sign grants or contracts with equipment owners, inspect the upgraded equipment, make payment for the cleaner technology, and track/report on funded projects.

The information in this report is based on the local agencies' semi-annual reports as of September 30, 2014, and supplemented with information in the Program's Goods Movement Online Database. The information is reported by year of funding, as defined below.

- Year 1: Awarded May 2008 Board Hearing
- Year 2: Awarded June 2010 and December 2011 Board Hearings
- Year 3: Awarded December 2011 Board Hearing - drayage truck projects only
- Year 4: Awarded July 2013 Board Hearing

Available Funding and Expenditures

Each budget appropriation authorizes ARB to use a specific amount of funding for this Program, within statutory timeframes. However, the appropriation does not provide any cash for this purpose. Therefore, we depend on the receipt of proceeds from State bond sales or other mechanisms to fund new projects.

The entire \$1 billion has been appropriated in State budgets (over multiple years), with \$980 million to ARB for this Program and \$20 million set aside by the control agencies to cover bond issuance and oversight costs. The final appropriation of \$240 million was approved in the Fiscal Year (FY) 2014-15 budget. In 2015, ARB will update the Guidelines, release a Notice of Funding Availability, and award the funds. The local agencies are expected to hold solicitations in Spring/Summer 2015 timeframe.

ARB has allocated approximately \$740 million for local agency projects and ARB's administration costs over multiple years, and has paid about \$719 million through September 2014.

2014 Report to Legislature

Previously submitted to the Department of Finance
December 2014 Semi-Annual Status Report to the Department of Finance

Project Results and Benefits

The Program bond monies are leveraging substantial match funding from private, local, and federal sources – more than one match dollar for every Program dollar invested.

Trucks. The local agencies have completed the truck projects from Year 1 through Year 3 with more than 9,500 cleaner trucks operating in the four priority trade corridors. The local agencies are in the process of implementing the Year 4 projects and expect about 4,000 trucks to be upgraded with cleaner equipment, with over 700 projects being operational through September 2014.

Ships at Berth. The Bay Area District's early grant project to install grid-based electrical power for three berths at the Port of Oakland was completed in 2011. Under Year 2 grant projects, the installation of electrical power was completed in 2013 for nine berths at the Port of Oakland and 25 berths at the Ports of Long Beach, Los Angeles, and Hueneme. Ships began to plug into the grid in early 2014.

Locomotives and Commercial Harbor Craft. The Sacramento and South Coast Districts completed the upgrade of 19 locomotives operating in the Central Valley and the Los Angeles/Inland Empire trade corridors. Another six locomotives operating in the latter trade corridor are expected to be upgraded by the end of 2014. In addition, the San Diego District's harbor craft project was completed and operational in 2013, and they are in the process of signing contracts to upgrade two more.

Benefits. When fully implemented, we expect projects included in this report will reduce over 4.4 million pounds or 2,200 tons of particulate matter (PM 2.5), plus over 170 million pounds or 85,000 tons of nitrogen oxides (NOx). Emission reductions for projects funded through 2013 are over the life of their grant term (e.g., 2 to 5 years for trucks and 10 years for ships at berth). Emission reductions for the Year 4 grants take into consideration ARB's regulations and include only the portion of the emission reductions that are early or extra to these regulations.

Implementation of Funds

Year 4. On July 25, 2013, the Board awarded approximately \$150 million, of which \$143 million was allocated for truck projects throughout the State, including \$5.3 million for loan assistance. In addition, \$6 million was allocated towards a truck filter substrate replacement program and nearly \$1 million for harbor craft projects. ARB anticipated reallocating the \$5.3 million loan assistance funds due to initial project demand; however, due to project fallout the funds are not needed. ARB will reallocate these funds in 2015, consistent with the priorities and procedures in the Guidelines. ARB anticipates the truck filter substrate replacement program to begin in early 2015.

2014 Report to Legislature

Previously submitted to the Department of Finance
December 2014 Semi-Annual Status Report to the Department of Finance

Additionally, Year 4 funds include monies not utilized from the Year 2 grants due to project fallout. Local agencies requested that these funds be made available to fund projects from the 2013 Truck Solicitations and ARB approved these requests consistent with the priorities and procedures in the Guidelines.

Local agencies held solicitations for truck projects beginning August 2013 through early October 2013 and a subsequent backup truck solicitation prioritizing small fleets between early October 2013 and early December 2013 (2013 Truck Solicitations). The local agencies received applications for over 5,000 projects in excess of \$200 million with half of the applications submitted by small fleets. Due to project fallout, they anticipate approximately 4,000 trucks to be upgraded. Over 700 trucks are operational with the majority of trucks expected to be operational by the end of 2014. The remaining trucks will be upgraded by early to mid-2015.

Year 2 and Year 3. ARB received funds for these projects in 2010 and 2011 from multiple bond sales. In June 2010, the Board awarded \$200 million in available cash primarily for the categories of truck projects and ships at berth/cargo handling equipment projects, with smaller grants for locomotive and harbor craft projects.

In December 2011, the Board awarded approximately \$101 million from the Fall 2011 bond sale and also allocated potential proceeds from a Spring 2012 bond sale; all of these funds were allocated for truck projects including a set aside of \$66.6 million for drayage trucks (Year 3 projects). Funds not utilized for drayage trucks were reallocated for Year 2 truck projects in accordance with the December 2011 Board approval. ARB received approximately \$15 million from the Spring bond sale and also reallocated \$6 million in ARB administration funds to complete the Year 2 truck projects.

All projects are complete except for the locomotive projects which are expected to be operational by the end of 2014.

Year 1. The first year funds of approximately \$246 million were used for projects to upgrade trucks, locomotives, and ships at berth. All of these projects were suspended for 6 to 14 months due to the December 2008 "stop work" order on bond funded programs, which resulted in an extended delay from time of application to contract. This led to some funds being unused by the local agencies; grant agreements were amended to transfer funds from undersubscribed grants to oversubscribed grants. All projects are complete.

Project Status

The tables on the following pages present the information by trade corridor (Table 1), source category (Table 2), and by grant agreement (Tables 3 through 8).

TABLE 3 LOS ANGELES/INLAND EMPIRE TRADE CORRIDOR – South Coast AQMD

Funding Year/ Category	Project Description	Grant Amount	Emission Reductions (pounds)		Current Project Status
			PM 2.5	NOx	
Year 4					
Other Trucks	Replace old dirty trucks with newer clean models. 13GML01/G11GMLT1	\$96,275,784	151,000	33,588,000	District has signed contracts to upgrade 2,079 trucks. 307 trucks have been scrapped and replaced with much cleaner trucks.
Year 3					
Priority Drayage Trucks	Replace old dirty trucks with newer clean models serving ports and railyards. G11GMLP1	\$3,302,250	1,000	973,000	Grant complete. 105 old trucks have been scrapped and replaced with much cleaner trucks.
Year 2					
Other Trucks	Retrofit trucks with soot filters and replace old dirty trucks with newer clean models. G11GMLT1/G08GMLT1	\$90,363,736	478,000	14,171,000	Grant complete. 1,513 trucks have been scrapped and replaced with much cleaner trucks. 385 trucks have been retrofitted with soot filters.
Ships at Berth	Eliminate or reduce emissions from ships at berth. G08GMLS1	\$59,973,125	343,000	21,841,000	District is in the process of completing the grant. Construction and installation of shore power equipment for 25 berths (12 for Port of Long Beach, 10 for Port of Los Angeles, 3 for Port of Hueneme) is complete with ships plugging into the grid starting in January 2014.
Locomotives	Replace old dirty locomotives with newer clean models. G08GMLL1	\$4,635,000	27,000	315,000	District has signed a contract to upgrade 6 locomotives and expects the projects to be operational by December 2014.

**II. Proposition 1B:
Lower-Emission School Bus Program**

[this page intentionally left blank]

EXECUTIVE SUMMARY

Since 2000, the Lower-Emission School Bus Program (LESBP) has provided over \$300 million for purchasing new, lower-emitting school buses and for retrofitting school buses with diesel particulate filters. New school buses and school buses retrofit with filters are important steps in reducing children's exposure to the harmful effects of toxic diesel particulate matter emissions. In the seven years leading up to the passage of Proposition 1B in 2006, the Air Resources Board (ARB or Board) administered State funds totaling just over \$100 million to replace 600 of the oldest, most polluting public school buses and retrofit about 3,800 other diesel school buses with ARB-verified pollution control equipment that significantly reduces toxic particulate matter emissions.

Proposition 1B authorized \$200 million in new incentive funding for ARB to reduce air pollution and the related health risk from diesel-fueled school buses through the already established LESBP. Under the LESBP Guidelines, ARB awards funding to local air districts and the local air districts then solicit and review applications from school districts and execute, complete, and reimburse contracts to replace or retrofit in-use school buses. The Board approved the current version of the LESBP Guidelines in March 2008 and has allocated and disbursed over \$194 million to 35 local air districts. The balance of the authorized funding was retained for ARB and Department of Finance administration costs as specified by the implementing statute.

The initial expenditure deadline for LESBP Proposition 1B funding was extended from June 30, 2011, to June 30, 2012, to accommodate bond funding delays and to allow for flexibility given the uncertainty in the timing of full bond funding for the LESBP. Since then, Senate Bill 1018 (Committee on Budget and Fiscal Review, Chapter 39, Statutes of 2012) extended the LESBP expenditure deadline from June 30, 2012, to June 30, 2014, to allow time for remaining funds to be spent on cleaning up California's school bus fleet thereby protecting children's health from the harmful effects of air pollution.

Unspent LESBP Proposition 1B funds, including accrued interest, that were not committed by an executed contract by June 30, 2012, were subject to transfer to another local air district that demonstrated an ability to fully expend funds by January 1, 2014. Local air districts had until June 30, 2014, to expend all funds and had until November 1, 2014, to enter data and submit final reports. Not all reports had been received at the time of this writing.

- As of November 2014, local air districts have reported executed contracts for 1,042 school bus replacements and 3,595 retrofits, obligating over 99 percent of the available Proposition 1B project funds.

Assembly Bill 110 (Blumenfield, Chapter 20, Statutes of 2013) authorized nearly \$700,000 of the remaining Proposition 1B funds, and Senate Bill 96 (Committee on Budget and Fiscal Review, Chapter 356, Statutes of 2013) directs the use of those funds in the LESBP. These funds must be encumbered by June 30, 2014, and disbursed to the air districts by June 30, 2016.

The report, which is required by Government Code section 16724.4, is available electronically at: <http://www.arb.ca.gov/mandrpts/mandrpts.htm>. To order a hard copy, please contact Ms. Lisa Jennings at (916) 322-6913.
