To Interested Parties:

Over the past several months, California Air Resources Board (ARB) staff have been evaluating the composite wood industry to identify options for reducing public exposure to formaldehyde from composite wood products. I would like to invite you to a meeting to discuss the progress in developing an airborne toxic control measure (ATCM) for these products.

The meeting will include a discussion of the results from our 2002 Composite Wood Product Survey and preliminary regulatory concepts. We will also provide an update on where we are in the process of developing an ATCM.

We have scheduled the meeting for:

Date: August 4, 2004
Time: 9:30 AM – 11:30 AM
Location: Cal/EPA Headquarters Building
Air Resources Board
Training Rooms 1 East & West
1001 I Street
Sacramento, California 95814

For interested parties unable to attend the meeting in person, we will be offering the option to teleconference. To participate, please call USA Toll Free **(888) 425-9158**, and provide the following numeric passcode: **35925**. We look forward to your participation. If you have any questions regarding this meeting, please contact Mr. Robert Krieger, Staff Air Pollution Specialist, Substance Evaluation Section, at (916) 327-5615.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.
