

State of California  
AIR RESOURCES BOARD

EXECUTIVE ORDER N-18-073

Relating to CARB Approval for an Exemption from Third-Party Certification  
for Composite Wood Product Manufacturers that use  
Ultra-low-emitting Formaldehyde Resins under  
section 93120.3, title 17, California Code of Regulations

**Vyatsky Plywood Mill Ltd**

WHEREAS, the California Air Resources Board (CARB) has adopted the "Airborne Toxic Control Measure to Reduce Formaldehyde Emissions from Composite Wood Products" (the "ATCM"; title 17, California Code of Regulations, sections 93120-93120.12), which establishes formaldehyde emission standards for composite wood products;

WHEREAS, section 93120.1(a)(42) of the ATCM defines "ultra-low-emitting formaldehyde (ULEF)-based resins" to mean "resins formulated such that average formaldehyde emissions are consistently below the Phase 2 emission standards in section 93120.2," for making hardwood plywood (HWPW), particleboard (PB), medium density fiberboard (MDF), or thin medium density fiberboard (tMDF);

WHEREAS, section 93120.3(d) of the ATCM allows manufacturers of HWPW, PB, MDF, and tMDF who use ULEF-based resins to apply for written approval from the Executive Officer for an exemption from the requirements of section 93120.3(b) of the ATCM;

WHEREAS, section 93120.3(d) of the ATCM allows manufacturers of HWPW, PB, MDF, and tMDF who use ULEF-based resins to submit an application for an exemption from the requirements of section 93120.3(b) of the ATCM to the Executive Officer, which includes: (A) a statement indicating which product types will be manufactured using ULEF-based resins for sale in California; (B) the chemical formulation of the candidate ULEF-based resin(s), including base resins, scavenger resins, scavenger additives, catalysts, and other additives as used in manufacturing; (C) the name of their CARB-approved third-party certifier (TPC); and (D) data on the emissions performance of the candidate ULEF-based resin(s);

WHEREAS, the data on emissions performance of the candidate ULEF-based resin required in section 93120.3(d) of the ATCM must be obtained by working with a CARB-approved TPC, and must include six months of routine quality control testing data, the correlation of the routine quality control testing data to primary or secondary testing data, and the results of two primary or secondary method tests, as required in Appendix 2 of section 93120.12 of the ATCM;

WHEREAS, section 93120.3(d)(2) of the ATCM requires that 90 percent of the six months of routine quality control testing data and the results of two primary or secondary method tests must be shown to be no higher than 0.04 parts per million (ppm), and that all data must be shown to be no higher than 0.05 ppm for HWPW and 0.06 ppm for PB, MDF, and MDF;

WHEREAS, section 93120.3(d)(5) of the ATCM provides that the Executive Officer shall approve the application and issue an Executive Order if the evidence submitted by the applicant is sufficient to demonstrate that the applicant has met the requirements specified in sections 93120.3(d)(1) and 93120.3(d)(2) of the ATCM;

WHEREAS, Vyatsky Plywood Mill Ltd (Vyatsky Plywood or the "applicant") submitted an original application that was received on July 20, 2010;

WHEREAS, the original application from Vyatsky Plywood specified the range in product manufacturing parameters, applicable post-press product treatments, base resin trade name(s) and base resin manufacturer(s)/supplier(s), and other ingredients added to the base resin by the applicant to manufacture ULEF hardwood plywood-veneer core (HWPW-VC) products;

WHEREAS, CARB was provided base resin/adhesive information specifying the base resin polymer type, and minimum and maximum values of all major and any minor ingredients in the base resin on a percent weight of solids basis;

WHEREAS, the Executive Officer found that the evidence submitted by the applicant meets the criteria specified in sections 93120.3(d)(1), 93120.3(d)(2) and 93120.3(d)(5) of the ATCM;

WHEREAS, the base resins/adhesive supplier, commercial name, and resin type are set forth in Confidential Attachment A;

WHEREAS, the original application from Vyatsky Plywood was deemed complete on August 16, 2010, and Vyatsky Plywood was issued Executive Order N-10-073 signed on August 23, 2010;

WHEREAS, section 93120.3(d) of the ATCM allows ULEF product manufacturers to apply for re-approval by CARB by submitting an updated application;

WHEREAS, Vyatsky Plywood submitted a request and supplementary documentation to CARB on June 22, 2011; for approval to add an additional resin system to Confidential Attachment A;

WHEREAS, the application and request from Vyatsky Plywood demonstrated that their added base resin system is the same type of base resin system as listed in Confidential Attachment A for Executive Order N-10-073;

WHEREAS, Vyatsky Plywood conducted confirmatory testing for the added resin system and provided the results of two primary method test on ULEF products made with the added resin system that are no greater than 0.04 ppm;

WHEREAS, Vyatsky Plywood provided the required testing data to add another resin system and the required formulation data for the added resin system, it was deemed appropriate that Executive Order N-10-073 be superseded by Executive Order N-10-073A;

WHEREAS, Vyatsky Plywood submitted an updated application for re-approval and to add an additional resin system to CARB on June 26, 2012;

WHEREAS, the application and request from Vyatsky Plywood demonstrated that the added base resin system is the same type of base resin system as listed in Confidential Attachment A for Executive Order N-10-073A;

WHEREAS, Vyatsky Plywood conducted confirmatory testing for the added resin system and provided the results of two primary method test on ULEF products made with the added resin system that are no greater than 0.04 ppm;

WHEREAS, Vyatsky Plywood provided the required testing and formulation data to add a new resin system and the required formulation data for the added resin system, it was deemed appropriate that the resin be added to Executive Order N-12-073;

WHEREAS, the updated application for re-approval and addition of resin system from Vyatsky Plywood was deemed complete on July 24, 2012, and Vyatsky Plywood was issued Executive Order N-12-073, signed on July 27, 2012;

WHEREAS, Vyatsky Plywood submitted an updated application for re-approval to CARB on June 16, 2014;

WHEREAS, the updated application for re-approval from Vyatsky Plywood was deemed complete on July 7, 2014, and Vyatsky Plywood was issued Executive Order N-14-073, signed on July 18, 2014;

WHEREAS, Vyatsky Plywood submitted an updated application for re-approval and approval to add an additional resin system to Confidential Attachment A to CARB on June 10, 2016;

WHEREAS, the application and request from Vyatsky Plywood demonstrated that the added base resin system is the same type of base resin system as listed in Confidential Attachment A for Executive Order N-14-073;

WHEREAS, Vyatsky Plywood conducted confirmatory testing for the added resin system and provided the results of two primary method test on ULEF products made with the added resin system that are no greater than 0.04 ppm;

WHEREAS, Vyatsky Plywood provided the required testing and formulation data to add a new resin system and the required formulation data for the added resin system, it was deemed appropriate that the resin be added to Executive Order N-16-073;

WHEREAS, the updated application for re-approval and addition of resin from Vyatsky Plywood was deemed complete on June 30, 2016, and Vyatsky Plywood was issued Executive Order N-16-073, signed on July 8, 2016;

WHEREAS, Vyatsky Plywood submitted an updated application for re-approval to CARB on June 6, 2018;

WHEREAS, the updated application for re-approval from Vyatsky Plywood was deemed complete on June 7, 2018;

WHEREAS, the Executive Officer finds that the completed, updated application demonstrated the ULEF manufacturer's ability to continue to comply with section 93120.3(d); and

WHEREAS, the Executive Officer approved Vyatsky Plywood's request for re-approval, and it is appropriate that Executive Order N-16-073 be superseded by this Executive Order N-18-073.

NOW, THEREFORE, IT IS ORDERED that Vyatsky Plywood is hereby approved as a ULEF manufacturer of HWPW-VC that is exempt from the requirements of section 93120.3(b) and Appendix 2 of section 93120.12 of the ATCM, provided that the following terms and conditions are met for products sold, supplied, offered for sale, or manufactured for sale in California:

1. Vyatsky Plywood must use the commercial resins listed and suppliers listed in Section A of Confidential Attachment A of this Executive Order for the manufacture of ULEF HWPW-VC products.
2. The chemical formulation of the base resin used for the manufacture of ULEF composite wood products by Vyatsky Plywood must be within the ranges specified in Section B of Confidential Attachment A of this Executive Order.
3. Vyatsky Plywood is legally responsible for ensuring that the base resin is within the ranges specified in Section B of Confidential Attachment A.

4. The application rate of the base resin used for the manufacture of ULEF composite wood products by Vyatsky Plywood must be within the ranges specified in Section C of Confidential Attachment A of this Executive Order.
5. Other chemical components of the base resins (such as sizing wax and release wax) used for the manufacture of ULEF HWPW-VC products by Vyatsky Plywood must be within the ranges specified in Section D of Confidential Attachment A of this Executive Order.
6. The allowable operating parameters for press temperature and press time for the base resins used to manufacture the ULEF HWPW-VC products by Vyatsky Plywood must be within the ranges specified in Section E of Confidential Attachment A of this Executive Order.
7. Only the composite wood products with the product names listed in Section F of Confidential Attachment A of this Executive Order are authorized under this Executive Order.

BE IT FURTHER ORDERED that this Executive Order N-18-073 supersedes Executive Order N-16-073, which was signed on June 8, 2016.

BE IT FURTHER ORDERED that Vyatsky Plywood may change the resin system supplier listed in Section A of Confidential Attachment A of this Executive Order if the new resin supplier supplies the same resin type listed in Confidential Attachment A of this Executive Order, at least two primary or secondary method tests are performed on random samples selected by their CARB-approved TPC, and the Chief of the Risk Reduction Branch of the Transportation and Toxics Division is notified before Vyatsky Plywood uses the resin for production.

BE IT FURTHER ORDERED that Vyatsky Plywood must conduct confirmatory testing for a new resin supplier by demonstrating that the results of two primary or secondary method tests for the new resin system supplier are no higher than 0.04 ppm for the ULEF products authorized under this Executive Order.

BE IT FURTHER ORDERED that this Executive Order shall have a duration of two years from the date this Executive Order is signed; the applicant may apply for re-approval as provided in section 93120.3(d)(5) of the ATCM.

BE IT FURTHER ORDERED that the applicant must maintain records in electronic or hard copy form for two years, for review by CARB upon request, as specified in section 93120.3(g) of the ATCM.

BE IT FURTHER ORDERED that the applicant must notify the Executive Officer in writing within 30 days if there is any change in their product manufacturing parameters or base resin manufacturer(s) or supplier(s) that does not comply with any of the requirements, terms or conditions specified in the ATCM or this Executive Order.

Executed at Sacramento, California this 19<sup>th</sup> day of July, 2018.

---

Richard Boyd, Chief  
Risk Reduction Branch  
Transportation and Toxics Division
