Dear Mr. Beck:

#94-15

Certification of Gasboy 9100, Gasboy 8700 and Tokheim 7500 Dispensers

I received your letter of July 1, 1994, in which you requested California Air Resources Board (CARB) certification for the Gasboy 9100 Series, Gasboy 8700 Series and Tokheim 7500 Series "High Retractor Dispensers". You note that the Tokheim 7500 Series model is identical to the 9100 Series model with the exception of the cabinet paint color.

The Air Resources Board requires the approval of the Division of Occupational Health and Safety, the Office of the State Fire Marshal and the Department of Food and Agriculture, Division of Measurement Standards. Confirmation was received that the Gasboy 9100 Series, Gasboy 8700 Series and Tokheim 7500 Series dispensers were acceptable and that there was no objection to the certification of this equipment.

I find that the Gasboy 9100 Series, Gasboy 8700 Series and Tokheim 7500 Series dispensers will not adversely affect vapor recovery systems on which they may be installed. Therefore, the Gasboy 9100 Series, Gasboy 8700 Series and Tokheim 7500 Series dispensers are certified for use with Phase II gasoline vapor recovery systems. These dispensers will be included in the next revision of G-70-52.

If you have any questions or need further assistance, please contact Ms. Christine McKenzie at (916) 324-7658 or Ms. Laura Sullivan McKinney at (916) 327-1525.

Sincerely,

A handwritten signature in black ink, appearing to read "James J. Morgester".

James J. Morgester, Chief
Compliance Division
