99-11

Dear Mr. Tucker:

Tokheim Premier Series "C" Upgrade Version Dispenser

This is in response to your request for California Air Resources Board (CARB) approval of the Upgraded Premier Series "C" Version Dispenser equipped with vapor recovery. This dispenser offers both balance and MaxVac options for vapor assist. The design changes incorporate modifications to the raceway, electronics enclosure and hydraulic cabinet.

As required by the Certification Procedures for Gasoline Vapor Recovery Systems at Service Stations, the approvals of the three State agencies are a precondition to certification by the Air Resources Board. The appropriate letters of approval have been received and are listed as follows:

Department of Food and Agriculture,
Division of Measurement Standards
April 30, 1996

Department of Occupational Safety and Health
February 26, 1996

Department of Forestry and Fire Protection
Office of the State Fire Marshal
February 7, 1996 GVRC 005:028:001

I find that the use of the Upgraded Premier Series "C" Version Dispenser, when installed in accordance with the manufacturer's instructions and the conditions listed above, will not adversely affect the performance of vapor recovery systems on which it is installed. Therefore, the Upgraded Premier Series "C" Version Dispenser is certified for use with CARB certified Phase II vapor recovery.
