

Postponement of AST EVR Rulemaking

The AST EVR rulemaking item has been delayed and is scheduled in **2005**. The extension will allow for further evaluation of the California AST inventory. Stakeholders with information on the number of AST tanks, their volumes and costs associated with purchasing and operating AST tanks are encouraged to provide them. During this period, additional emission inventory analysis will also be performed and outreach efforts will be conducted.

For additional questions or information you may contact Stephanie Connelly at (916) 445-9308 or via e-mail at saconnel@arb.ca.gov or Joe Guerrero at (916) 324-9487 or jguerrer@arb.ca.gov.
