

## About EMCO Wheaton Retail

---

**WHEATON RETAIL** *Focusing on the Future, Serving Today's Needs*

EMCO Wheaton Retail Corporation located in Wilson, North Carolina is the premier manufacturer and supplier of a wide range of products to ensure the environmental safe handling of liquid petroleum. Under new ownership since May 1996, the company continuous to be at the forefront in the development of innovative products and services for the domestic and international petroleum equipment industry.

EMCO Wheaton Retail products are grouped into four major categories:

- Vapor recovery and automatic nozzles
- Dispenser accessories including safe breaks valves and swivels
- Overfill prevention and spill containment devices
- Valves and fittings

Products are brought to market primarily through a global distributor network. In addition, the company has twenty-one domestic and international field sales offices. Our mission is to provide the highest quality, lowest total cost and quickest order response.
