Enhanced Vapor Recovery (EVR) and In-Station Diagnostics (ISD) at Gasoline Dispensing Facilities

Dear Sir or Madam:

Do you know how many Gasoline Dispensing Facilities are in your area? Most, if not all of them, will be approaching your agency for a permit in the next few months to upgrade their stations to meet new vapor recovery requirements mandated by the California Air Resources Board (ARB). Is your agency prepared?

The Bay Area Air Quality Management District (BAAQMD) and ARB staff will hold an informational meeting for city and county regulatory agencies regarding Enhanced Vapor Recovery and In-Station Diagnostics. The meeting will focus on coordination of local permitting agencies to allow gasoline dispensing facilities to complete equipment upgrades by April 1, 2009. We would appreciate if you could forward this notice to staff that process permits for service station upgrades. The agenda for the meeting is still being finalized. It will be posted at www.arb.ca.gov/vapor/vapor.htm no later than one week prior to the meeting. The time and place for the meeting are as follows:

Date: Tuesday, September 25, 2007
Time: 9:00 a.m. to 12:00 p.m. (PDT)
Location: Bay Area Air Quality Management District
939 Ellis Street
San Francisco, CA 94109-7799

Visit <http://www.baaqmd.gov/dst/directions/index.htm> for directions and public transit options to District offices. Meeting locations are accessible to people with disabilities.

Teleconferencing will be available. The call-in information will be provided with the agenda. If you have special accommodation or language needs, please contact Elizabeth Mongar at (916) 327-0900, as soon as possible. TTY/TDD Speech-to-Speech users may dial 7-1-1 for the California Relay Service.

If you plan to attend in person, please RSVP to Ruth Argueta of BAAQMD at (415) 749-4778 or via email at rargueta@baaqmd.gov so that we can ensure adequate seating.

If you have questions regarding this meeting, please contact Cindy Castronovo of the Air Resources Board at (916) 322-8957, or via email at ccastron@arb.ca.gov.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
