## Proposed Enhanced Vapor Recovery Regulation Amendments Workshop Notification

Workshop Date: June 18, 2002

Time: 10:00 am to 3:00 pm

Location: California EPA Headquarters  
Coastal Hearing Room, 2<sup>nd</sup> Floor  
1001 I Street  
Sacramento, California, 95814  
<http://www.calepa.ca.gov/EPAbldg/location.htm>

### Background:

When the Air Resources Board (ARB or Board) approved the Enhanced Vapor Recovery (EVR) regulatory amendments on March 23, 2000, the Board recognized that several of the proposed standards were technology-forcing. In Resolution 00-9, the Board directed that a technology review be conducted for certification standards that have future effective or operative dates, including in-station diagnostics, nozzle performance standards and onboard refueling vapor recovery (ORVR) compatibility. The draft EVR Technology Review Report was issued April 2, 2002 and includes recommended changes to the EVR standards. These proposed EVR standard changes, and improvements to the certification and test procedures identified during the technology review, will be discussed at the next workshop. The EVR amendments are scheduled to be considered by the Board at the September 2002 meeting.

### Workshop Information:

The workshop has been scheduled for June 18, 2002, at the Cal-EPA building in Sacramento. An agenda will be posted to the vapor recovery web page by June 6, 2002. Those who have registered on the vapor recovery listserv will receive an e-mail notification when the agenda is available. To register, click on the "join e-list" button at [www.arb.ca.gov/vapor/vapor.htm](http://www.arb.ca.gov/vapor/vapor.htm). The workshop presentations will be posted on the web before the workshop commences and audio broadcast of the workshop is planned. Information regarding the audio broadcast will be provided when the workshop agenda is available.
