## WORKSHOP NOTICE

January 30, 2015

**TO:** All Interested Parties

**SUBJECT:** PUBLIC WORKSHOP TO DISCUSS PROPOSED CHANGES TO THE  
VAPOR RECOVERY EQUIPMENT DEFECT LIST

The California Air Resources Board (ARB) staff invites you to participate in a public workshop (workshop) to discuss proposed changes to the Vapor Recovery Equipment Defect (VRED) List. The workshop will be held in Sacramento, California at the location indicated below. Interested stakeholders can participate in the workshop either in person or via teleconference.

### VRED List Workshop

**Date:** Wednesday, March 4, 2015  
**Time:** 10:00 a.m. to 12:00 p.m.  
**Location:** Air Resources Board  
First Floor Conference Rooms  
1927 13<sup>th</sup> Street  
Sacramento, California

By law, ARB is required to identify and list defects in vapor recovery equipment that substantially impair the effectiveness of a vapor recovery system to collect vehicle gasoline refueling emissions. Additionally, ARB is required to review the VRED list at a public workshop once every three years and update it, if necessary. The current VRED List was last updated in 2012.

At the workshop, ARB staff will make a short presentation, followed by a question-and-answer period. ARB staff will discuss proposed changes and solicit feedback. The presentation and supporting information will be posted prior to the workshop on ARB's website at <http://www.arb.ca.gov/vapor/vred/vred.htm>.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.*
